DUNNES SPECIAL

Socialist Worker

VOTE "YES" FOR STRIKE ACTION

WORKERS in Dunnes Stores throughout Ireland should return a massive "YES" vote for strike action.

Dunnes Stores is a multi-million pound business and has made its fortunes on the backs of workers. Their latest attack on workers' conditions by forcing Sunday trading at flat rate is a outright disgrace. Workers in this country have fought long and hard for decent pay on Sundays. Don't let Dunnes take that away.

A national strike against these greedy bosses would force Dunnes to

- Pay treble time for Sunday working
- Give workers the choice to have Sunday off
- Create more full-time jobs
- Negotiate with MANDATE on all conditions

Working class people in this country are fed-up with the bosses taking more and more for their own profits.

The give-back on hours in TEAM Aer Lingus and Packard Electric are examples of how employers keep attacking our conditions. Dunnes workers should stand up to their bosses and fight for their rights.

There is massive sympathy in this country for workers who fight back. The barworkers strike in Dublin last Summer was an example of how much support the public will give to see workers win. The Knightingales shopworkers in Dublin's Ilac Centre got tremendous support during their three week strike. And they won.

A national strike against Dunnes would cripple this company's profits.

Every worker should be recruited into the union and make sure the strike is solid. Active pickets will win the support of the public.

Workplace collections should be organised throughout other supermarket chains and in jobs in every town and city. A victory on Sunday trading in Dunnes will be a win for all workers.

The bosses in this country are having it too good for too long. It's high time we for us to get organised and stand up to them. Our Government is letting the rich away with tax breaks and covering up for them. Goodman can get away with stealing millions of pounds from taxpayers but PAYE workers have to carry 89% of the tax bill.

We need a fighting alternative to the sell-outs of Labour and Democratic Left in Government. We need a different kind of society that where people's needs come before the profits of the rich. The Socialist Workers Party are actively building a workers organisation to fight for real change in this country. JOIN US.

❑ I want to join the Socialist Workers Party
❑ I want more details
❑ I want to take *Socialist Worker* regularly
